Summary

Java Developer with **5 years of hands-on experience**. Skilled in **performance optimization, CI/CD automation, test-driven development, and defect resolution**. Adept at working in **Agile/Scrum environments**, mentoring junior developers, and collaborating with cross-functional teams.

Professional Experience

Senior Associate Technology L1

10/2025 – Present

Publicis Sapient, Noida

- Working with Optum health care.

Experienced Software Java Developer

06/2022 – 10/2025

Amdocs Development Center India LLP, Gurugram

- Designed **and delivered core billing features** (Automatic Reject, advanced rebill) for T-Mobile and Bell Canada, reducing manual billing errors by **40%** and boosting system reliability by **15%**.
- Developed **real-time billing solutions** for Vodafone, TELUS, and Bell Canada using Java, Spring Boot, and Microservices, improving charge calculation speed by **20%**.
- Deployed **15+ client-requested features** via Jenkins CI/CD pipelines, reducing deployment time by **30%** and increasing release frequency.
- Resolved **50+ production defects** through debugging and performance tuning, improving system uptime and reducing downtime by **25%**.
- Led **sprint demos & KT sessions** for product owners and QA teams, improving stakeholder alignment and reducing onboarding time by **20%**.
- Recognized with **Spot Award** and **Passion & Contribution Award** for delivering high-impact features and CI/CD optimizations.

Jr. Software Engineer (Java Developer)

10/2020 - 06/2022

Cognizant Technology Solutions

- Developed **and deployed 5+ microservices** using Spring Boot, Spring Cloud Gateway, and Eureka Discovery Server, enabling seamless service discovery.
- Resolved **20+ critical defects** across multiple sprints, improving application stability and reducing production incident rate by **15%**.
- Built **and optimized REST APIs** for KBC's digital banking platform, handling **~20K requests/day** with <200ms average response time.

Internship

12/2019 - 04/2020

Cognizant Technology Solutions

- Lead a team of five member for creating, demoing and deploying a full stack project using Spring, Microservices, Rest Api's, AWS.

Skills

Languages: Java 8/11/17, NoSQL (Couchbase)

Framework: Spring Boot, Spring Cloud (Eureka, Gateway), Hibernate, JPA, REST APIs

Testing: Junit, Mockito, Integration Testing, Test-Driven Development (TDD)

Technologies: Spring Data JPA, Microservices, AOP, RestControllerAdvice, Swagger, Maven, Multithreading, Couchbase.

DevOps & Tools: Jenkins, Git, Bitbucket, Postman, OpenShift, Jira

Software Development: Data Structures and Algorithms, Microservices Architecture, REST APIs, Low Level Design, Object- Oriented Design, Multithreading, Caching, Agile, Design Pattern.

Education

BE – Computer Science & Engineering | LNCT Bhopal | 2016 – 2020 (8.93 CGPA)

Certifications:

- NPTEL – Programming in Java (**Gold Medal**)
- NPTEL – Problem Solving in C (**Silver Medal**)
- Microsoft Azure Fundamentals (**AZ-900**)
